Category product list

Needle holder

Needle holder

The Dental Needle Holder – Hollow Handle Style is a precision surgical instrument designed for secure needle control during suturing procedures. Manufactured from premium surgical-grade stainless steel, the hollow-handle construction provides a lightweight, well-balanced feel that reduces hand fatigue while maintaining excellent strength and durability. Ideal for oral surgery, periodontal procedures, implant surgery, and general dental suturing.

Key Features

- Hollow Handle Design:** Lightweight construction for improved balance and reduced hand fatigue.
- Secure Needle Grip:** Precision serrated jaws provide a firm hold on suture needles to minimize slipping.
- Surgical-Grade Stainless Steel:** Corrosion-resistant construction for long-lasting clinical performance.
- Mirror-Polished Finish:** Smooth surface for a professional appearance and easy cleaning.
- Ergonomic Control:** Comfortable grip for accurate needle placement during delicate procedures.
- Autoclavable:** Suitable for repeated steam sterilization.
